

Connectivity for remote management of all your COOLNOMIX assets.

- Works with **AC-01 / AC-02 / AR-01 / AF-01 systems.**
- Universal real-time connectivity to all your COOLNOMIX units using the Internet of Things (**IoT**), **WIFI** and **AWS.**
- **Access** via **Android** based **tablets/mobile phones** and **PC's** (MAC's & Windows etc.).
- **GEMS** services to manage all COOLNOMIX assets at an annual fee.
- They include:
 - Individual unit visibility.
 - Model health and alarms.
 - Firmware version updates.
 - Activity status.
 - Instant error reports
 - Heating & Cooling set point management.
 - Data logs and downloads.
 - Visibility of energy % savings.
 - Enable / Disable COOLNOMIX operation.
 - AI setpoint optimization (Autotune).
 - GEMS platform designed for future management of other assets e.g. LED lighting.
