

Connectivity for remote management of all your COOLNOMIX assets.

- Works with **AC-01 / AC-02 / AR-01 / AF-01** systems.
- Universal real-time connectivity to all your **COOLNOMIX** units using the Internet of Things (**IoT**), **WIFI** and **AWS**.
- **Access** via **Android** based devices (**tablets/mobile phones**) and **PC's** (**MAC'-OS & Windows-OS**).
- **GEMS** services to manage all **COOLNOMIX** assets available at an annual fee per unit.
- They include:
 - Access individual unit.
 - Verify firmware version.
 - Verify mode status.
 - See compressor status.
 - Visualize current set point.
 - View alarm/alert status.
 - Upgrade firmware.
 - Timely system maintenance alert.
 - Download log data (dashboard).
 - View individual energy in % savings.
 - Change temperature setpoint.
 - Assign device name & see model type.
 - Enable / Disable energy savings.
 - AI optimized setpoint (Autotune).
 - Set testing cycles.
 - Capable of adapting new features
